**From the President
 Linda Horn**

What an amazing organization! Take some time to review the variety of fun, interesting, informative, and healthful activities, events and trips offered by your club for your enjoyment. A recent quick count of things to do revealed that our calendar has well over 400 days of activities

each year. Way more than one event every day. And the most amazing thing is that these 400 days of activities are made possible by our member volunteers! Whether serving as event leaders, ambassadors, board members, or performing countless behind the scenes tasks, or by attending and participating in events and activities, you are helping to keep the Club strong, healthy, and thriving. A big THANK YOU to all of you!

Speaking of volunteering, the Club has an opportunity for a volunteer to edit the Life Newsletter and also for a position on the Board of Directors. If you have an interest in learning more about these positions or any other volunteer activities, please contact me at 262-707-1450 or linda.horn1@gmail.com

Happy Thanksgiving and Many Blessings,

Ski Activities
Joyce Szulc

Are men's & women's skis different?

Is there really a difference between men's and women's skis other than the graphics? It's not just about cuter graphics. You might have heard the phrase "shrink it and pink it" to describe women's skis. Women tend not to want as long a ski as men do. Why? Because most women are not as big and tall as men. It's about Weight. A woman's center of gravity and power are in different areas than a man so they need a differently constructed ski. For most women to be able to flex a ski the same way a heavier man can, the ski needs to be a bit lighter. Manufacturers will either thin out the metal or take it out completely. They may also change the dimension a little bit.

It's about size underfoot. Another example is fat skis. When we talk about fat skis, a 100mm underfoot might be appropriate for a 190 lb. man. But for a 140 lb. woman, that may equate to a 90mm. It is not just the graphics, the size of the ski is also what is behind the whole "shrink it and pink it" idea.

It's about ramp angle. A woman's center of gravity is in her hips, while a man's is in his chest. Another design feature that ski manufacturers do is put a little ramp angle on the ski. This moves a woman's lower center of gravity forward. Finally, ski techs may opt to mount part the binding a centimeter forward to get the same effect on different skis.

Newsletter Editor Needed! Can you help?

The Club is looking for an Editor for *the Life Newsletter*. The Editor receives articles from the Directors each month, proofreads them, puts them into a plain Word document and sends it to the Graphic Designer. The Graphic Designer creates *the Life* and sends a proof back to the Editor and other key Board members. The Directors and officers check their articles for accuracy and report changes that need to be made. The Editor performs its function in his/her own home. Only a computer and an email are needed. There are no required meetings to attend. If you are interested in helping, please contact **Linda Horn**, 262-707-1450 or **Ron Sonntag**, 414-788-4907.

Share your photos of our members enjoying activities! Send high resolution (largest) photos to Jeff White at ejwhite8942@yahoo.com so they can be uploaded to the website and used in the *Life*. Also send photos to Joyce Szulc, jszulc@wi.rr.com, to post on the Vag Facebook page.

Festival City Symphony Presents Stories Told by Music

Sun., Nov. 10 @ 2 pm • \$8 pm
Pabst Theater • 144 E. Wells St., Milwaukee

Festival City Symphony presents its second extraordinary concert using the works of two of the greatest composers of all time, Claude Debussy and Maurice Ravel. The mysterious and beautiful music will delight and entertain you as it uses all of the “colors” of the orchestra to depict stories and myths from Ravel’s Mother Goose (Ballet) and Debussy’s Prelude to the Afternoon. For those of you who attended Festival City Symphony’s first concert of this season in September, you probably remember the standing ovation of Ravel’s lively music that sounded like one of the themes from the Olympic Games. The Ravel music this time picks up where other music of Ravel left off. A terrific concert awaits you for only \$8 for Vagabonds and guests at the gorgeous Pabst Theater. Sign up online, show up in the front hall of the Pabst Theater at 1:40 pm, or send a check for \$8 each, made out to VSSC, to **Ron Sonntag**, 9406 N. 107th St., Milwaukee 53224. After the concert, head to Rock Bottom Brewery for great food and beverages.
